- 6-24 gang mounting plates have individual removable banks for ease of installation and future changes. Banks removed via quarter turn fasteners offering quick release/fitting

PREMERA mix combinations

Various socket options to offer a wide choice of worldwide applications;

- Standard 13A sockets BS1363
- Non standard 13A
- 5 and 15 Amp round pin
- US standard 15A 3 pin sockets
- European Schuko sockets
- Key switched socket with power indicator
- Unique key switch with integral neon indicator

COPA clip-on plate range

Eaton's COPA range is strengthened with the introduction of the PREMERA mix range.

- Includes new modular plate options up to 24 gang
- Plates available in decorative plastic finishes and high quality metal finishes
- Plates can be affixed by either clip-on or screw on option depending on the clients' requirements

Eaton's clip-on plate accessory range provides a very easy way to meet the requirements under the Electrical Installations section for switches, outlets and controls.

Eaton's solutions:

A range of 10 standard colours/finishes will ensure a suitable contrast is maintained between wall and plate switch/socket.

It is recommended that a 30-point difference in the light reflective value (LRV) be achieved between the two surfaces. The LRV scale runs from 0, which is a perfectly absorbing surface that could be assumed to be totally black, up to 100, which is a perfectly reflective surface that could be considered to be the perfect white.

With COPA, the switch/socket plate colour can be left to the last minute due to its simple clip-on facility. This allows for late confirmation or unknown wall colour. It also avoids any damage to the front plate during wall preparation/painting.

- Choice of 10 contrasting colour/finish plates.
- Final colour of plate can be left to the last minute and clipped on once the wall surround colour is known.

A comprehensive range of broad rocker switches with contrasting coverplates is available including:

- 1 and 2 gang large rocker 2 way switches
- Intermediate switches
- Double pole switches
- Push switches

Light Reflective Value (LRV) plate guide

Plate finish	Approx. LRV
BM BLACK MATT	26
GY GREY	39
BL BLUE METALLIC	59
SB SATIN BRONZE	62
SV SILVER METALLIC	65
SS STAINLESS STEEL / MATT CHROME	70
GL GOLD METALLIC	77
HP HIGHLY POLISHED	82
PB POLISHED BRASS	83
WH WHITE	89

Eaton offers a comprehensive range of sockets with outboard (separated) rockers. Coloured plates can be selected to provide suitable visual contrast.
